Triangular Wave Technologies, Inc. (TWT) Bringing you the best in fluid management solutions

TWT offers four distinct styles of shower filters that fit any shower head. Customers can choose from optional shower heads, low-profile or high-capacity reversible filters with a choice of price points. Plus a unique hose filter that fits any existing shower handle.

Universal shower filtering technology offers exclusive shower filtration media containing... chlorgon & KDF—The only non-carbon filtering media to remove:

- Free Chlorine (CL)
- Combined Chlorine (sodium hypochlorite)
- Hydrogen Sulfide (rotten egg smell)
- Iron Oxide (rust water)
- Dirt, Sediment
- Odors
- Plus, its pH Balanced

Additional Features Include:

- Advanced Designs
- Patented Technology
- Easy Installation
- Replacement Cartridge
- Self Sealing Threads
- High Strength Construction

The Ultimate Showering Experience!

Slim-Line Universal Shower Filters

Low-profile Slim-Line Filters provide ample headroom. Designed to extend the shower head less than 1.5 inches, the Slim-Line is compact but powerful in filtration performance.

TWT-SL-WH-M White

- Low Profile Design
- Extend-A-Path™ Baffle System
- Shower Head Extension: Less than 1.5 inches
- Slim-Line Replacement Cartridge (Model TWT-SLC)
- Cartridge Life Rating: 6 Months

TWT-SL-CM-M Chrome

TWT-SL-GD-M Gold

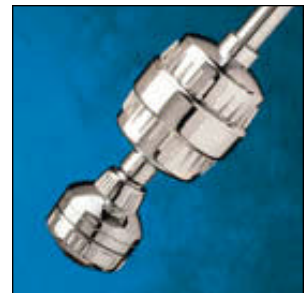

High-Output Universal Shower Filter

Here's a versatile reversible shower filter with outstanding structural integrity and reliability in a one-year filter. Easy operation and maintenance, combined with long-life performance make this high-output shower filter an outstanding value.

TWT-HO-WH-M White

- High-Capacity Filter
- Ultra-Strong Housing
- Reversible Filter Cartridge (Model TWT-HOC)
Can be easily reversed and operated in both directions. Periodic reversing not only eliminates channeling/ back flushing, it ensuring balanced filtration.
- Cartridge Life Rating: 1 Year

TWT-HO-CM-M Chrome

TWT-HO-GD-M Gold

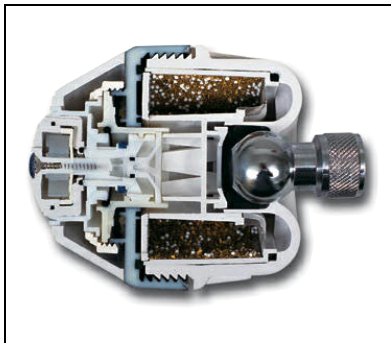

The Ultimate Showering Experience

Prestige All-In-One Universal Shower Filter

All-In-One is the world's first showerhead with an internal filtering system. Patented technology combines with multiple-function shower sprays, high-strength construction and triple-plated components assure structural integrity. Contemporary designs complement any shower environment.

- Cartridge Life Rating: 3 Months

TWT-HF-GD Gold

Manufactured for TWT distribution by Sprite Industries, Inc.

Health and Beauty Begin with a Filtered Shower

CLEANER WATER IS HEALTHIER WATER!

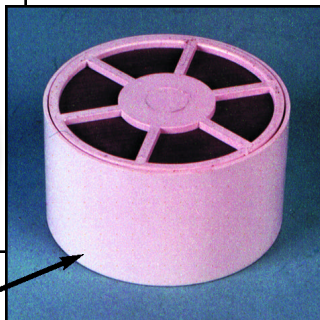

Shower Chlorine-Free: Chlorine is universally used to disinfect water, killing bacteria and other microorganisms. But once it arrives in your home or office, chlorine can negatively affect your family & friends long-term health, comfort and even personal appearance. TWT Shower filters with patented Chlorgon® non-carbon media—outperform other filters for chlorine removal in hot shower conditions.

For Softer Hair, Smoother Skin and More: Millions own water filters to remove chlorine from drinking water. But 50% of chlorine exposure occurs in the shower. Un-filtered shower water can double their exposure to chlorine by absorption through the skin and by inhalation of chlorine vapors. TWT shower units filter chlorine, dirt, sediment and odors for softer hair, smoother skin and more. Now you can breathe easier, fight brittle hair, dry skin and dandruff—where health and beauty begin—right in your shower.

For Today's Healthy Home: Shower filtration is a logical addition for people concerned about home environmental issues, including the quality of water and air in their homes. Help protect your home's personal environment and entire family with a universal filter in every shower.

Universal shower filtering technology offers exclusive shower filtration media containing... chlorgon & KDF—The only non-carbon filtering media to remove:

Easy to Replace Filter Cartridge

- Free Chlorine (CL⁻)
- Combined Chlorine (sodium hypochlorite)
- Hydrogen Sulfide (rotten egg smell)
- Iron Oxide (rust water)
- Dirt, Sediment
- Odors
- Plus, its pH Balanced

Concerned individuals, governments and environmental groups have recognized the impact of chlorine and other hazardous chemicals on the earth and its inhabitants, and they are moving to reduce and/or eliminate chemicals from all treatment processes.
