Custom orders available by request.

## ULTRA-VIOLET DISINFECTION ACCESSORIES

**TWT-UV-AA**  
This safety device sounds an alarm if the germicidal lamp becomes ineffective.

**TWT-UV-MON**  
This electronic safety device monitors lamp output and triggers the audible alarm when lamp output falls below recommended levels.

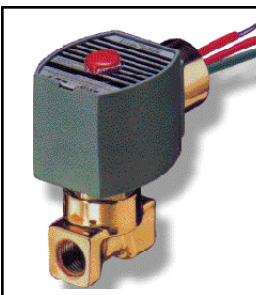

**TWT-UV-HM**  
Cumulative Hours in Operation Monitor ( Re-Settable )

## SOLENOID VALVES

### Solenoid valves stop the water in the event of a system failure

The Solenoid Shut-Off Valve is a backflow cutoff for use as a safety measure in the event of a system shutdown. Its use is strongly recommended for the medical and dental environments, and anywhere else that the highest degree of disinfection protection is required.

TWT-SV-50	1/2" Solenoid Valve
TWT-SV-75	3/4" Solenoid Valve
TWT-SV-100	1" Solenoid Valve
TWT-SV-125	1 1/4" Solenoid Valve
TWT-SV-150	1 1/2" Solenoid Valve
